

## Dog Day Architecture

Canine consoles do double duty

Tired of looking at your dog's crate? Stephanie Henley and Troy Beasley have created fine furniture for Fido. Doggie Dens can be used as side tables and provide plenty of room for your dog to move

around. A drawer can hold treats, leashes, and a TV remote. Made of birch with five water-based non-toxic finishes. From \$600 ([dogdayarchitecture.com](http://dogdayarchitecture.com)). ▶
